DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 62-75 are, drawn to a method of **treatment** of a disease or disorder of the mucosa by administering **anionic** lipid assemblies.

Group II, claim(s) 76-79 are, drawn to a method of **prevention** of a disease or disorder of

the mucosa by administering **cationic** lipid assemblies.

2. The groups of inventions listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Group I is drawn to 'treatment' whereas Group II is drawn to prevention. Group I uses anionic lipid assemblies whereas Group II uses cationic lipid assemblies. The two inventions are independent and distinct.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
